

DOI Work Activity 13: Plan/Evaluate Programs to Inform Decisions on Invasive Species

Program Area:	Knowledge Advancement
End Outcome Goal:	PEO 4 - Improve the Understanding of National Ecosystems and Resources Through Integrated Interdisciplinary Assessment
Intermediate Outcome:	PIO 4.1 – Ensure Availability of Long-Term Environmental and Natural Resource Information, Data, and Systematic Analyses Needed by Land and Resource Managers for Informed Decision Making
DOI Sub process:	2a - Plan (prepare resource use & mgmt plans)

Examples/Notes:

Work Activity Description: Planning, developing, and reviewing science programs pertaining to Invasive Species. Includes all costs associated with developing strategic and annual/operating program plans; conducting internal and external reviews of programs; determining science and information needs and priorities; and coordinating crosscutting regional, national and international science planning efforts. This encompasses all work leading to completion of program plans, reviews and evaluations. Some of these activities are done in collaboration with customers, stakeholders, and partners so that we may develop and implement programs that are responsive to society's highest science priority needs and improve the effectiveness and impact of programs related to Invasive Species. **Does not include DOI strategic planning or Bureau strategic planning that are included in DOI Work Activity 67 - Perform Planning.**

Output: Plans and Evaluation Reports (e.g. Program evaluations, Performance Reports, Peer Reviews, 5-yr Plan, PART, effects statements, capability statements, Customer Satisfaction Surveys)	Unit of Measure: Number of Plans and Evaluation Reports
Inputs:	Cost Drivers:
